Bandra (E), Mumbai – 400051

Script Symbol: Owais

Sub: Intimation for successfully extracting the rare Earth Element /Substance from waste.
Regulation: Intimation under Regulation 30 of SEBI LODR Regulations.

In continuation with our announcement dated March 20, 2024, regarding receiving permission from the Department of Atomic Energy for handling prescribed substances, we are pleased to share significant progress in our operations.

Our company has successfully achieved the recovery of Rare Earth Elements, specifically Tantalum Pentoxide, with a purity of 99.9% from slag. This high-purity material is being utilized in various applications, including capacitors, semiconductors, the defence sector, electronics, and more. In addition, we are advancing in the recovery of Niobium Pentoxide at 99.9% purity, along with Titanium Dioxide and Tin from the residual slag post-Tantalum Pentoxide recovery. This advancement is set to significantly enhance our performance and contribute to our nation's vision of becoming self-reliant (Aatma Nirbhar) and a global superpower.

Our company is on the verge of starting its commercial production, and we will keep our stakeholders updated with further developments. We extend our heartfelt gratitude for your continuous support and look forward to sharing more positive news in the near future.

Thanking you,

Yours faithfully,

For Owais Metal and Mineral Processing Limited

Mr. Saiyyed Owais Ali
Managing Director
